

# EXECUTIVE MENTORING

**Go from a great leader to a phenomenal leader.**

Nonprofit leaders can often feel alone. You face unrelenting demands and challenges in an extremely complex role. I work with high-achieving (new and experienced) executives to identify, prioritize and attain your professional and organizational goals. You will receive personal support in developing skills and strategies to increase organizational impact, while enhancing your value to the organization.

**I am not just a coach. I am a strategic advisor. I will help my clients solve their most pressing issues.**

Your nonprofit is as unique as you are. I will walk alongside you to ensure both are successful.
